PayBox - GIODY

PayBox - POS

PayBox - CAIMAN

Made in metal with a mechanical lock, PayBox is a **robust yet visually appealing solution** that fits the vast majority of machines available on the market. PayBox is available in three versions depending on the payment system to be installed, and features an **MDB connector** for machine connection. Its **modular design** allows PayBox to be positioned to the right or left of the machine.

Dimensions in mm. Payment systems not included.

PAYBOX

MODULAR PAYMENT MODULES FOR TABLE-TOP

PAYBOX GIODY

Front panel pre-fitted for the installation of a Giody coin validator with integrated PIT reader. Includes coin collector and dedicated display.

PAYBOX POS

Front panel pre-fitted for the installation of a payment terminal. Optional display to show credit on the module.

PAYBOX CAIMAN

Front panel pre-fitted for the installation of a coin validator with front plate and a key/card reader (Caiman, OPTO or other series). Includes coin collector. Optional display to show credit on the module.

Key and card top-up via payment terminal

PAYBOX KEY CHARGER

A centralised station for the electronic top-up of keys, eliminating readers on individual machines and reducing cash usage. Powered by Caiman EXE technology and an integrated payment terminal, it optimises costs and ensures secure data management. The metal structure with display and 4G connectivity delivers durability and convenience, making it ideal for receptions and break areas.
