

SIGMA

ELECTRONIC PAYMENTS TERMINAL

ADVANCED
TECHNOLOGY ON
ANDROID PLATFORM

TOUCH SCREEN

IMMEDIATE
SETTLEMENT

INTEGRATED
TELEMETRY

SMOOTH PAYMENTS. INSTANT SETTLEMENTS. INTEGRATED TELEMETRY.

The SIGMA terminal accepts contactless bank cards, magnetic stripe or chip cards, and digital wallets such as ApplePay and GooglePay. Built on the **Android 11 platform**, it is ready for a wide range of future integrations. Transactions are processed in seconds, with funds available on your account in real time with no additional costs and fully transparent bank fees. SIGMA also includes **integrated telemetry**: with **PayTools4Sigma**, the payment terminal becomes a remote control tool, with nothing extra to add.

Integrated Telemetry

With the new **PayTools4Sigma app**, the SIGMA payment terminal acts as a connectivity module, enabling remote management of the machine and payment systems. **One device, two purposes**, no additional hardware, no installation hassle. Data are always available on **PayCloud**, the Paytec portal for securely viewing, storing and updating all information related to your systems.

- ▶ **Machine alarms** received in real time
- ▶ Vending machine and payment system **audit** always available
- ▶ Remote **configuration** updates, including prices and discounts

Android technology, built for any environment

- ▶ **Android terminal with 5" touch screen**, IP65-certified against weather exposure and IK08-rated for daily physical wear
- ▶ **PIN-on-screen** removes all barriers related to purchase frequency and product pricing
- ▶ **Backlit screen** to display notifications and animations

Plug&Play installation

- ▶ **Fast, fully online registration process**: up and running within a few days
- ▶ Dedicated mounting frame and external 4G antenna included in the package

Full real-time monitoring

- ▶ **Comprehensive and customisable reporting**, available on desktop or via app
- ▶ **Refunds processed directly from the portal** with a single click
- ▶ **Immediate access** to funds

Advanced connectivity

- ▶ Stable connection via **Wi-Fi, 4G or LAN**
- ▶ Multi-operator SIM card
- ▶ Compatible with **cashless MDB 1 or 2**, in both credit-first and selection-first mode
